

BOMBARDIER

Quality Supervisor, Certification and Preflight

BOMBARDIER the evolution of mobility

At Bombardier Aerospace, our employees work together to evolve mobility worldwide - one good idea at a time. If you have a good idea, we'll provide the environment where it will thrive and grow into a great product or customer experience. Your ideas are our fuel.

In your role, you will;

- Provide oversight to our Quality Management System throughout the manufacturing process. This process includes integrating major structures, aircraft ground and flight testing, as well as certification activities to achieve a Certificate of Airworthiness.
- Achieve the required product quality performance by reinforcing and implementing the quality management system
- Plan, implement and control quality functional activities within Global Preflight as well as site Aircraft Certification for sustaining programs.
- Manage, coach, develop and provide feedback to a group of Inspectors and Certification personnel. Ensure that all team members understand their role and performance in achieving the business unit targets.
- Utilize problem solving, corrective action and continuous improvement tools to ensure best practices are being developed and implemented within our quality management system via product and process assurance and progressive certification of Aircraft Build within our manufacturing lines.
- Ensure the right resources are available to meet projected workload delivery on quality, cost and schedule.
- Maintain and ensure budgetary requirements of the responsible departments.
- Ensure a safe and equitable working environment for our employees.

As our ideal candidate, you possess;

- A University degree in a technical, quality, or program management discipline is preferred.
- A minimum five (5) years management experience in Quality (Aviation experience preferred).
- A valid AME license or equivalent would be an asset.
- In depth knowledge and experience in Quality Control / Assurance, Flight Testing, Aircraft Certification, corrective and preventive actions methodology, and manufacturing systems.
- Experience working with unions and collective agreements.
- Strong interpersonal and negotiation skills.
- The ability to adjust priorities and manage time wisely in a fast-paced environment.
- The following traits: ethics, integrity and honesty; respect for others; cooperation; motivation to get things done; the ability to express ideas logically and coherently; a positive attitude; the ability to overcome obstacles; willingness to assume full responsibility; ability to utilize the appropriate resources to solve problems; a quick reaction to unforeseen events; good judgment; the ability to innovate.

Bombardier Aerospace is an equal opportunity employer and encourages women, Aboriginal people, persons with disabilities and members of visible minorities to apply.

Whether your candidacy is moving on to the next step of the hiring process or not, we will keep you informed by email or by phone. Join us at careers.bombardier.com
